

Technical Elective Preference and Assignment Process for Graduate Students 2017-2018 Spring Semester

TEContact e-mail address: eipek@metu.edu.tr

Deadline to submit your preferences: February 8, 17:00

What are the technical electives offered this semester and what are their prerequisites?

Course Code	Course Title	Prerequisites	Instructor
IE415	Revenue Management	251, 265	Z. M. Avşar
IE424	Scheduling	324	Ö. Kırca
IE454	Network Flows and Project Management	251	M. Azizoğlu
IE486	Retail Management	323	Ö. Karaer
IE4907	Special Topics in IE: Multi-Objective Combinatorial Optimization		B. Lokman
IE4909	Special Topics in IE: Analysis and Optimization Methods in Finance	252, 265, 347	B. Çavdar

How can I learn more about the technical electives?

There will be a meeting about technical elective courses on **February 7 at 10:00 a.m. in IE03**. In order to get information about IE4XX technical elective courses, you may attend this meeting. Also, you may find syllabi of the courses offered on the Current Semester page.

How do I submit my preferences for technical elective courses?

As graduate students, you will NOT give or fill in any preference form for the IE4XX courses. Instead, **'first come first served'** policy will be applied (please consider that the capacity allocated to the grad students is very limited for IE4XX courses). Therefore, you should send an e-mail to about the IE4XX course you want to take. The subject of your mail should be TECELECGRAD_youridnumber. Example: TECELECGRAD_1234567. If the subject of your mail is not proper, your mail can be ignored.

Assignments will be announced at <https://ie.metu.edu.tr/en/current-semester> on Friday, February 9. Since the capacities are very limited, we will closely monitor whether everybody registers properly. Please make sure you do not apply for a course unless you are certain that you are willing to take it if it is assigned to you.
